To Whom It May Concern:

I am pleased to provide this letter of recommendation for Sleighter Engineering. The McKeesport Housing Authority has had the pleasure of working successfully with Sleighter Engineering for over three years on a variety of projects. On many occasions we have worked directly with the owner, Mr. Robert Sleighter, and have found him to be a very good communicator who listens to our needs and directs his staff accordingly. We have also found Mr. Sleighter and his staff to be extremely knowledgeable with respect to HUD regulations for design, including accessibility standards. Sleighter Engineering has provided a range of services to our authority including establishment of the project scope of work, full scope design and construction support services, Physical Needs Assessments, Phase I Environmental Site Assessments, and a variety of construction related support services. We are in the process of renewing our contract for the first option year with Sleighter Engineering, because we are pleased with the prompt and courteous service they provide. We are pleased to provide this recommendation without reservation, and would recommend Sleighter Engineering to any Housing Authority in need of Capital Fund design services.

Sincerely,  
  
Stephen L. Bucklew
